GALLIPOLIS, OHIO, NOT YET FREE FROM THE PLAGUE-THE STEAMER JOHN PORTER TO GO TO PITTSBURG, PA.

GALLIPOLIS, Obio, Sept. 14, 1878. The list of sick in the lever district has been reduced since yesterday by the death of William Walker last night and of the Clodious brothers to-day. The remainder are improving, with the exception of two, who will hardly live through the night. Hugh Ply-maio, living three miles below the town was taken sick to-day, but the doctors have not yet determined that it is a case of yellow fever. The steamer John Porter departed this morning in search of her run-away barges, and on finding them will proceed to Pittsburg.

THREE DOCTORS AND FIFTY PATIENTS. BY TELEGRAPH TO THE HERALD.

HICKMAN, Ky., via Paducan Junction, Sept. 14, 1878. Sept. 14, 1878. §

The overspreading cloud of gloom still shows the blackness of night. Matters here are worse than ever. Dr. John Blackburn, of all the physicians that have undertaken to stay the progress of the disease, alone remains unstricken by the scourge. Dr. Alexander A. Farris has been o completely exhausted as to be unable to render any further assistance. Dr. J. W. Farris has gone from Jordan's Station to Hickman to-day. Six new Jordan's Station to Hickman to-day. Six new cases have appeared and six deaths within the past twenty-four tours. The names of the dead are Miss Irone Amburg, whose father was the wealthiest citizen of the town; Dr. Barnes, Mrs. F. Wilson, Frank Siegrist and son and Henry Sampsey. Fifty deaths have occurred so far and fifty cases are now on hand, with only three doctors, when well, and five nurses to care for them. The material for yellow lever to work upon its about exhausted. Dr. Blackburn says it is the most terribly malignant form of lever he has ever seen. Several are now in a dying condition and will not see daylight. Among the number is Mayor George Prather.

NO YELLOW FEVER IN ANY ATLANTIC OR PA-CIFIC PORTS.

[BY TELEGRAPH TO THE REPALD.]

Washington, D. C., Sept. 14, 1878. Surgeon General Woodworth authorizes the offictal statement that there is no yellow lever or other disease warranting the quarantining of vessels clearing from any of the Atlantic or Pacific ports of the United States. This announcement has been deemed advisable in view of the preclamation of the King of Italy.

A question having arison as to whother the cases of yellow fever that occurred on hoard the steamer Hutchineon had arisen from an infected cargo, it was satisfactorily settled yesterday by the fact that it was brought on board by a stownway from New Orleans, Great care is taken by the owners of steamers plying Great care is taken by the owners of seemers plying between that port and New York in regard to the reception of cargoes and passengers. None of the crows of the steamers leaving here are aslowed to go abnore at New Orleans; hence the probabilities of their bringing the mandy here is very remote.

The quarantine at time port was never in a better saminary condition than at present. Outside the convalencent cases of the Butchinson at Quarantine Hos-

valeacent cases of the Butchinson at Quarantine Hos-pital there is no sickness of any kind.

Yesterday was a remarkably pure and healthful day at Quarantine. The serenity of the atmosphere and the non-arrivatol any infecies vossel give reason for the hope that the crisis is over and that New York Harbor will not be visited by the scourge this session. Some time ago Fostmaster James caused bulletin boards to be piaced in the vestibule of the Fest Office on which to pest the arrival of steamers as soon as sighted and telegraphed from Fire Island. The tele-graps companies fail or refuse, it is alleged, to send guen notice less their treasury should lose thereby. The City of Berlin was sighted yesterday at mine A. M., but was not posted unit one P. M., when she had auchored at Quarantine.

A YELTOW PEVER SCARE.

Certain mysterious instructions privately promulgated to the Health Inspectors and a member of the disinfecting corps yesterday afternoon, raised a ripple of excitement among the attaches of the Central Office, and it was rumored at once that the dreaded yellow lever had visited the city. Neither dreaded yellow lever had visited the city. Nother Drs. Janeway nor Jones had any information on the subject; Dr. Taylor had heard the rumor but was not officially informed. Mr. McGowne, of the Disinfecting cerps, stated that a lady had written to her relatives in Eidridge street that she was leaving Momphis, Team, with her little daughter, for this city, and wished the Board of Health notified to take charge of her baggage for necessary disinfection. Mr. McGowna went to the house where the indy was expected to arrive at four o'clock I'. M. yesterday, but she was not there. Her relatives said she had changed her plans and would remain in Memphin, as the change in the atmosphere had abated the special of the yellow lover.

MEDICAL EXAMINATION OF CANDIDATES FOR CADET ENGINEERS,

[BY TELEGRAPH TO THE HERALD.] ANNAPOLIS, Md., Sept. 14, 1878. REPORTER.—Do you think they can enlored that order, General?

General?

General?

General BUTER.—Well, not much. Every representative body by the common parliamentary law
are judges of the qualifications of its own members,
and the majority of the Convention will probably insist on going into the half where they have been
directed to assemble, and there doing the
business which their constituents seat them to
do. And if the minority are not satisfied with
their action, if they are honorable men and not
pointical republican priests, they will feel themselves
bound by the action of the convention of which they
took part. I have never known any politican not a
priest, and a republican so devote of bonor as to take
part in a convention, act and vote in it with a threat
that if its doings did not suit him he would bolt and
oppose its action, and I do not believe any such course
will be adopted by the honorable men of the democratic party.

nriday, the 21st, examinations in Geometry willbegin, followed in order by drawing, English stadies, natural philosophy, arthinetic and nigebra. As soon as the physical examination of a candidate is concluded he is examined in mechanical aptitude.

The examination will close on Tuesday, September 24. The maximum number is 400. In this examination in geometry the highest mark is forty; in drawing twenty; in English studies, 100; in natural philosophy, forty; in arithmetic eighty; in aigebra, eighty; in mechanical aptitude, forty.

Two hundred candidates are expected to report, only twenty-new will be selected, and these by competitive examination.

SUICIDE OF J. S. GROSENBACH, WHO COULD NOT LIVE AFTER THE DEATH OF HIS AF-FIANCED WIFE.

[BY TELEGRAPH TO THE HERALD.]

REPORTER—But, General, what if you are nominated and they do bolt?

General EUTLER—They will only go over to the republican candidate, and that is all, and bring about the contusion which they have been plotting for some weeks. They think more of their money sad bonds and the privilege of running away from their taxes down to Nahant and elewhere than they do of their party brinciples; and, therefore, they will join those republican leaders who are of the same persuasion; but they will not stay the tide of revolution in the State pointies, which means that the State shall not be tax-ridden, deut-burdened, office-plundered, enterprise-ruined, later-despoiled any longer. Times are so disastrous, and our people so starved in the State, that the statistics of the births just published show that minat children cannot afford to come into it, as these statistics show that lower children were burn in 1877 than in any year since 1865, went there was an obvious reason for a small number of births.

Reporter—The order does not seem, then, to impute nyou much?

General EUTLER—Oh, no. I am a candidate of the independent, thinking men of Massachusetts, without distinction of party. While I am grateful for any expression of trust or considence in me by any party or class or beople, the democratic party, II it has any hope of ever flaving any power in the State Central Committee have selected deneral Ennes S Whitney to preside at the State Convention at Worcestor on Tuesday next. General Whitney has reconity published a letter strongly in opposition to Butter. SPRINGFIELD, Ohto, Sept. 14, 1878. The town of Marysville, Ohio, is deeply disturbed by a decided social sensation.
